

## Sack Trolley Article No. 258-259

### Specification

#### ► Function

This functional sack trolley, that due to its robust and stable frame design holds the waste sack in a fixed position and makes it easy to empty or even “tap” the waste off into the sack.

This trolley has been designed with an open end that prevents damage at removal of the sack and easy to clean plain surfaces.

#### ► Dimension

Article No. 258

Width: 450 mm  
Depth: 450 mm  
Height: 846 mm

Article No. 259

Width: 350 mm  
Depth: 350 mm  
Height: 795 mm

#### ► Design/Features

The trolley is made from stainless steel and the sack holder from SS square tube, the top section 25 by 25 mm, that holds the sack in an open and fixed position. High quality Ø75 mm ball bearing castors, two with brakes, fixed by well supported bolts.
